IIT HYDERABAD

TECHNOLOGY INCUBATION CENTER

itic.iith.ac.in

OVERVIEW

iTIC is a Technology Business Incubator (TBI), under the aegis of Indian Institute of Technology Hyderabad (IITH) and supported by the Department of Science and Technology (DST), Government of India. iTIC is a Not-For-Profit Society, which focuses on creating a supportive and nourishing environment for budding entrepreneurs in the field of technology.

The focus area of iTIC incubator is Deep tech, but not limited to any specific sectors. Under the umbrella of iTIC, various grants and programs support entrepreneurs in sector specific areas, like:

- Program for autonomous Navigation and UAVs supported by TiHAN
- IDEX DIO for Defense applications
- MeitY TIDE 2.0 for IT product related innovations
- Nidhi PRAYAS for Hardware based ideas
- NICE for sector agnostic Deep tech innovations
- BEL Seed Fund for Video Analytics applications
- AISEA for Social Impact based tech innovations

800+	**~1.5 Lac Sq. Ft**	**150+**
Total Jobs Created by Startups	Dedicated Incubation Space (at the upcoming building)	Mentors Associated

WHAT WE DO

We help entrepreneurs leverage a premier quality research and startup ecosystem with the goal of building a comprehensive platform to practice innovation and entrepreneurship. iTIC incubator provides various opportunities, resources, and learning experiences so that these entrepreneurial ideas can be turned into sustainable, scalable profit-making business ventures.

HOW WE DO

iTIC incubator dispenses stagewise intervention for startups to grow in the Deeptech entrepreneurial ecosystem. For fresh startups getting access to funding or finding contacts in project areas to speak with, or coming up with a pitchbook can seem very mystifying at first. iTIC helps to overcome these barriers by presenting collaborations and tools that have been extremely useful to iTIC incubatees in the past. iTIC Team's regular follow up and assessment techniques contribute to understanding the effectiveness of a programme, activities, costs and benefits for different stakeholders.

STARTUP JOURNEY with iTIC

Pre-incubation: For idea stage entrepreneurs, iTIC has a structured pre-incubation program of 12 months. The aim of this program is to support entrepreneurs convert their ideas into a working prototype.

Incubation: For the startups that have a prototype or an MVP, iTIC has a structured incubation program of 24 months. The aim of this program is to support startups convert their prototypes into sellable products and gain traction.

Acceleration: When a startup has early traction in the market and wants to grow exponentially, iTIC supports startups via cohort based 4-6 months accelerator programs.

Co-Working Space	Mentorship	IP Support	Financial Aid
Networking Events	Software Tools	Technological Infrastructure	Maker Lab

Entrepreneurship Ecosystem at IITH

IIT Hyderabad has a vibrant entrepreneurial ecosystem, actualized through various formal and informal centers. We help guide the students from germination to mature business entity stages. These are enriched by various research labs and centers, helping create a culture of innovation. In addition, the academic structure also allows students to take a semester break for entrepreneurship initiatives or industrial internships.
